

Freshman Cup Table Tennis Championship

The 2009 SJTU Freshman Cup Table Tennis Championship Games spanned over two months and drew over three hundred players. Under such fierce competition, Davood Hasanloo, an Iranian PhD student in the School of Naval Architecture, Ocean and Civil Engineering, eliminated his opponents one by one to face his final match: Chinese college freshmen Wang Xiaochuan. With a 4:0 victory, Hasanloo broke the record by becoming the first international student champion in the history of the Freshman Cup Table Tennis Championship.
