

### **The Mini Expo**

Shanghai Jiao Tong University's students created their own version of the World Expo on campus. More than 100 students from 19 countries as geographically dispersed as Korea, Philippines, Kazakhstan, Iran, France, Sierra Leone, Mauritius, and Japan erected pavilions on campus and invited international and local students alike to participate. Live concerts featuring ethnic musical instruments from Indonesia, traditional dances from Malaysia and Myanmar, and other performances drew quite a crowd, while the international cuisine and unique exhibits kept the crowd lingering.
